

Introduction to Portraiture Materials List

Most important: please bring a portrait photograph that you would like to work from, printed out on a piece of paper and NOT just on a phone. An 8 ½" x 11" black-and-white photocopy is just fine. You could even use a picture from a magazine, but I prefer it to be someone that you know.

Regular pencil & eraser

8 ½" x 11" drawing paper, heavy enough to take a little bit of watercolor.

Optional: watercolors and/or charcoal

We will be doing a number of quick sketches from photographs, so if you have any good photographs of faces that you would be willing to share, please bring those along too. Otherwise, just bring yourselves, and a spirit of fun and creativity.
